Ron, get your car out here ASAP. We have everything needed to figure out the brakes and get it fixed. We need it as early tomorrow as possible although I do have lights on the trailer if we have to do it late.

Aubie, I have a set of RA-1's if you need tires. You need to get the car out here and see what it is up to. We all can help with whatever you need to do to sort it out and get on the track.
