

1987 924S spec car and trailer

Posted by 944leigh - 08 Sep 2015 16:35

This is a well sorted, fast and reliable 1987 924S completely built out to 944 spec. including limited slip, manual steering rack, full cage, spare wheels, etc. etc. See attached pdfs for more particulars.

Includes a nice double axle open trailer.

I've been mostly AXing it the last several years, with some DE's before that, never raced it wheel to wheel, and am now planning on building a house on a hill- so no time or room.

\$8500 with the trailer, less if you don't need the trailer.

Thanks for your interest. I'm in North San Diego County
