

Free 944 tub in Los Angeles

I have an '88 gutted, with suspension, but 16x7 phonies, available for free. No fenders, engine, transmission, or hood, no dash or seats. All the glass is there, plus the sunroof, and tail lights. No front valence, or bumpers. No space for the body, but it is way too nice to cut up, or scrap. Free or trade for a single cookie cutter. Pic is from when I got it.
