2 Fully Restored Porsche 944's

The 92 Car won the 944 Championship the 18 car has several podiums

These cars underwent a complete restoration. The paint is new, the blue, gold and red on the car is paint not a wrap. We perfectly duplicated the Rothmans livery. The cars have both been on the track one time since the paint work was completed.

Both cars are identical and had a full mechanical restoration. Race prep was done by Gold Crest.

Both Cars have completely rebuilt motors with zero hours on them- Each rebuild cost \$9,500.00.

Both Cars have 2 sets of rims and NEW Hoosier tires. The rims were all widened.

Both Cars have 2 seats installed.

We spared no expense on these cars. I am selling both of them because I have another racing opportunity that I could not pass up. 35k for both.

Beautiful cars! One of our Southeast racers has already contacted you about them. It would be interesting to find out more info about them such as suspension setup and any engine modifications done during the rebuild.

Do you still have the Rothman's 944 cars? I shopping for my next car. If you do can you share a little more info?
