

SoCal 944 Spec builds

Posted by tcomeau - 28 Feb 2017 09:28

Let me know if you're interested in a build to go racing in the 944 Spec class. I have an 83 and an 84 chassis waiting for new owners.

I could be interested depending on condition and price

Stop by the shop?

We're assembling a completely rebuilt 944 Spec engine right now for the 83 chassis. It's a log booked car already. Just putting our touch on the systems.

Price depends on things like LSD or not, (I was very competitive for years without an LSD) on board fire sysytem, etc.

Hey Joe, Are you the guy who just bought the red car from Steve L. in Santa Clara? If so, email me or call. I'm the last 944 guy here in Norcal, I may have some stuff for you or even a complete car

Ron
