I also have a set of used RA1 from 09. They are about 50% worn and have plenty of life left. These have been stored indoors.

I can post a pic but not until tomorrow.

Looking to get \$50 each plus shipping.

Located in California.

I actually have 2 sets of RA-1s. One set has two heat cycles and one set is about 50% left. All are from the 2012 season. I'm in Illinois I could meet you to drop them off for the cost of fuel.
