

WTB: Late DME

Posted by Manuel_M - 27 Apr 2015 08:05

Hey Guys,

Had a no start at the track and finally traced it down to the DME. Anyone have an extra late for sale. I'd prefer not to buy a sketchy one from ebay or pay an arm and leg for a rebuild.

Hey Manny-

Do you really need a late (88) DME? The one we took from Alan's car and tested in yours was an early.

If an early is OK then I have several spares-

I'm in the market if you still have one for sale.

I have '88 DME available.

E-mail if interested.
