

20' Trailex Aluminum Trailer Model 84180 Enclosed

Posted by lonestarrpm - 06 Sep 2016 10:08

Trailex Aluminum Trailer 20 feet 84180 forsale

I found the trailer I thought was going to be perfect for me and had it shipped.

When it arrived -- it was too narrow for my RSR. The RSR is extremely wide at 78" and the trailer inside wall to wall is 80".

(I had been told it was wider)

These were designed with the 911 in mind, just not one quite as wide as mine. Not too many 911's run on 14" slicks.

The trailer is a 99, but in very good condition.

4 new wheels and tires plus 5th wheel spare in perfect condition.

The trailer is also very well equipped.

1000W Inverter, Air Conditioner, 2 Odyssey batteries,

Diamond plate, floor, walls, insulated,

Double Awnings, side window, side drivers side swing out doors

Double Tire Rack, Spare Tire

Dual Pull down storage compartments

Foldable built in diamond plate work bench.

11' aluminum ramps

6' interior head room

Passed inspection with flying colors.

If you are looking for an lightweight enclosed trailer at less than 1/2 the cost of new, this is the one for you.

Can easily be pulled behind an SUV. Weight about 1800# according to Trailex.

\$12K

Located in Austin.

Mike

Bump -- this would be great for a spec944.

Easy to pull behind SUV.

Mike
