

## Why do we drive with the visor down ?

Posted by JerryW - 07 Aug 2013 14:16

---

Here is why -

[www.liveleak.com/view?i=7e2\\_1375797997](http://www.liveleak.com/view?i=7e2_1375797997)

I'm not always the best at having my visor down (but always wear safety glasses under the visor) but this video and the ones I've seen of fires over the last couple of years confirms the need for the protection !

Thanks to Ron Dale for finding this !

I saw this shared by Apex on facebook earlier today. That is a very very lucky man!

However, where are the flags from the Marshals. Surely a drive-shift is pretty easy to see? Anyway that is beside the point, I guess.

Also a good commercial for a Lexan windshield!
