| Hi Gents/Ladies |
| New to Spec944 forum Sorry, but have been "air-cooled" driver for many years GTS3/TTC 911 Carrera and SC in the barn Thinking of adding Spec944 to the stable. |
| For the limited years 83-88? 2.5L naturally aspirated, is there a better year choice of car to seek out? IF you had to do it over? A year that had just something else over another year car? |
| I will be building from scratch, and doing my own thing Appreciate the feedback! |
