944-SPEC - 944SPEC - low cost wheel to wheel racing Generated: 30 June, 2025, 00:59 944 spec drift passing Posted by SvoChuck - 15 Feb 2008 09:32 In the first one I am passing Chris at MPH (motorsport park Hastings) it's a race for second place behind " Der Kommissar" . Chris enters the turn wide and leaves the door open! Second one is Woody " Drift King" driving my old car a 944 Turbo has over twice the power as a 944-spec car but won't quite turn as well as one. Chris (white car to the left) and I are in a tight battle for season points. I see Woody coming so I move to the inside to force him around the outside. Chris stays left so Woody drives it in HOT then goes for a ride. Re:944 spec drift passing Posted by PhilÁ© - 18 Feb 2008 23:41 Weeeeeeeeee-HA! sounds like fun... turn up the sound.
