What is the biggest seat you can put in a 944/924S Posted by Fooshe - 15 Feb 2011 20:47
So I am inches away from getting into this class, but need a huge seat to do it. I'm talkin' Evo 3 or Recaro Profi XL kind of size.
Will they fit in the chassis?
Anyone know how many inches (exactly) there is to work with?
Thanks!
