Bracelet

Oyster, flat three-piece links

Dial

Details

Highly legible Chromalight display with long-lasting blue luminescence

Dial

Blue

The Oyster Perpetual Submariner is the quintessential divers' watch, the benchmark in its genre. Introduced in 1953 during the pioneering era for scuba diving, it was the first watch to be water-resistant to 100 metres (330 feet). This iconic timepiece has since evolved with a series of patented Rolex technical innovations, guaranteeing its reliability and precision down to depths of 300 metres (1,000 feet). At home in the oceans, where it remains an indispensable instrument for every diver, the Submariner has also conquered terra firma as the watch of action with a rugged elegance of its own. The Submariner is available with and without date function.
