944 Spec compound Posted by cbuzzetti - 16 Aug 2013 22:24
Is there any plan as far as a 944 Spec compound for the RVs like in 09 and 10?
It worked out great and it was a good meeting and gathering place.
Did we get a community garage?
Any one have a count on the number of RVs?

You can do some tuning on a Mustang dyno, but it's not going to give you numbers that mean anything relative to the power cap

What about Magnus racing I haven't been able to find a number yet but suposably they have a Dyno and rent it out.

He says it's a Mustang roller dyno and they might rent it out if there isn't anyone working in that shop but ts normally kept for in house only.

He should be coming to Miller with me so we might be able to call in a favour or two (but no guarentees)
