

Beware of Water Wetter....

Posted by xsboost90 - 16 Aug 2012 18:38

[forums.rennlist.com/rennforums/showthrea...amp;referrerid=11788](https://forums.rennlist.com/rennforums/showthread.php?p=11788)

for those building new cars- spec has approved water wetter for the spec series but we may not want to use it....

i guess the testing was done by a competing brand so take the testing with a grain of salt. Ive run this in my car so far with no issues....

I have used water wetter and water for going on 10+ years in my 944 spec motors. I never have noticed anything like this even on motors I have torn down.
