Just moved to Salt Lake City Posted by Bryantwidd - 12 Mar 2008 04:31
Hi,
I just moved to Salt Lake City and am interested in getting involved with 944 spec racing. I am woundering if there are guys in the area that I could get in contact with. I have been looking into the NASA 944spec series for the past year or so. I just bought myself an 1986 944 about a month ago. I are excited about getting going.
