Hey Guys,
Joe Rothman here. I currently have (but can't afford to race) a 944S2 set up for PCA F class.
A friend of mine in Denver has a couple potential donor cars for sale. If there is somewhere else you think I should post, please let me know.
Both are '87's with over 160k.
Car #1 has a bad clutch and REALLY ugly paint. Starts and sounds ok running. \$800
Car #2 has passable red paint, new tires, runs and drives fine (I'm told haven't driven it myself). \$1,800.
Contact Dave Imes 720-272-5917. Both cars are located at his shop in Lakewood.
Thanks,
Joe

Hi, Joe. Hope all's well. I've copied your post to the NASA RM 944 page, here:
www.nasarockymountain.com/nasa_forums/forumdisplay.php?f=33
Good luck with the sale!
