

944 Spec build party 2/25/12 in Cumming, GA

Posted by S2k4j - 06 Feb 2012 11:24

Here we go, time to start on another southeast 944 spec car!! The interior has been stripped so all the goodies have been claimed, but there is still plenty to do and possible surprises. Swing by the chicken shack to help us rebuild the motor, suspension and brakes.

Party starts at 9AM on 2/25/12 in Cumming GA, lunch and beer will be provided -no light beer! Stop by to help, hang out or show off your ride. Stay as long as you want, overtime will not be paid!

PM me for locations and details -Hope to see a huge crowd as we build the 944 spec series in the southeast!!

What a great build day! Thanks to Mike (Commander), Fred (Fast Tater), Brian, RJ, Skip, Greg, Andy, Pat, Duff, Brian W. for the support! We accomplished a lot in one day, engine rebuild, front suspension and new brakes all the way around. We took her off the lift and the newest NASA SE 944 Spec breathed life! :twisted: And oh baby does she sound good! 8)

Pics will follow in the next few days....stay tuned for our next party towards the end of March - begining of April were we will be swaping out the transmission and building the rear suspension. As always we will have other goodies to play with and everyone is invited!!!
